

wherein the text presented to the user is dependent, at least in part, on said transmitted user/device data.

38. The method of claim 27 wherein the user device has wireless transmit and receive capabilities.

39. The method of claim 38 in which the wireless device has a store-and-forward capability, wherein ambient music can be stored and later identified if wireless service is not available at the time when the ambient music is received by the microphone.

40. The method of claim 27 that includes providing to the user one or more internet links determined - by reference to the identifier - to correspond to the ambient audio.

41. The method of claim 27 that further includes the act of processing the transferred electronic signals to generate the identifier.

42. The method of claim 41 in which said processing is performed in the user device.

43. The method of claim 41 in which the processing comprises decoding a watermark from the transferred electronic signals. --

REMARKS

After entry of the foregoing amendment, claims 1-18 and 23-43 are pending in the application. A clean copy of the claims is attached to the end of this document (and is included in the substitute specification submitted herewith).

New claims 27-43 are closely modeled after claims submitted in application 09/574,726. If the similar claims in both applications are indicated as allowable, a Terminal Disclaimer will be submitted in the second-to-be-allowed application to avoid obviousness-type double patenting.
